Gates® | **DRIVEN BY POSSIBILITY™**

INTRODUCING THE eCRIMP™ APP

BUILT FOR HIGH-PRESSURE SITUATIONS WHERE YOU NEED ASSEMBLY DETAILS AT YOUR FINGERTIPS.

Demanding conditions demand smarter solutions. Whether you work in extreme environments or controlled conditions, the eCrimp app gives you one less thing to worry about.

Crimping your hydraulic and industrial hose assemblies to the exact specifications is essential for your operation's safety, uptime, and sustained performance. With Gates eCrimp mobile app, available for iPhone and Android, you can access your assembly specs offline and in real-time, so you can deliver factory-quality hose assemblies anytime your application demands.

FEATURES

- **SAFETY** – Qualified crimp specs at your fingers

- **GLOBAL** – Change location, units, and language to fit your needs

- **REALTIME UPDATES** – Always have the latest updates and new details

- **OFFLINE CAPABILITY** – Download specs for areas without data connections

- **SAVE FAVORITES** – Quickly access your most common hose-coupling combinations

- **IMAGES FOR PRODUCT VERIFICATION** – Eliminate errors with visual identification

- **DYNAMIC SEARCH CAPABILITY** – Narrow your search by hose, coupling or size
